BAL PHARMA

Rx Lipived®

Guggulu, Lashuna, Guduchi, Shunti, Maricha, Pippali

A composite image illustrating the connection between obesity and heart health. It features a doctor in a white coat measuring a patient's waist with a yellow tape measure. A red ECG-like line is visible in the top left. In the bottom left, a cartoon heart character with a face, arms, and legs is shouting into a megaphone. To the right, a circular risk chart shows the relationship between age and risk of heart damage. Below the chart, a text box states: "FOR EVERY 10 YEARS THAT A PERSON SPENT OBESIVE THEIR RISK OF HAVING HEART DAMAGE ↑ 1.25 X". A small note at the bottom right says "Ref. JHUSM'2018".

no risk 1.25x risk 1.6x risk 2x risk 2.4x risk 3x risk
0 10 20 30 40 50 years

FOR EVERY 10 YEARS THAT A PERSON SPENT OBESIVE THEIR RISK OF HAVING HEART DAMAGE ↑ 1.25 X

Ref. JHUSM'2018
